# EHS RegTracker

Bloomberg Environment's EHS RegTracker helps you manage regulatory developments in multijurisdictional operations with efficiency-increasing tools that help you review, track, and collaborate with stakeholders across your organization on regulatory activities.

This easily accessible and always up-to-date web platform includes three modules: U.S. federal/states, international (150+ jurisdictions), and Canadian federal/provinces and territories.

With EHS RegTracker, you can monitor for new regulations or changes to existing regulations with concise, detailed summaries containing code citations, effective dates, comment deadlines, and government contact information.

EHS RegTracker allows your organization to configure to your needs and requirements:

## Customize and filter:

- Create a customized regulatory profile based on where you operate.
- Set up Groups by site, facility, region, or office.
- Filter by specific data you need by subject or jurisdiction.
- Track applicable regulations by topic and jurisdiction.
- Search summaries by topic, jurisdiction, or keyword.

## Receive email alerts:

- Receive email alerts on regulatory actions.

## Utilize workflow tools:

- Determine applicability to review company impact.
- Assign regulatory actions to stakeholders involved.
- Generate reports that can be downloaded in Excel.
- Add files, URLs, and comments to your assessment for each action being reviewed or tracked.

## Manage content and frequency:

- Manage your compliance obligations more easily with an inbox format where regulatory actions get populated based on your compliance and regulatory profile.
- Access full text of federal and state register documents.
- Frequency of updates:
  - U.S. federal/state - daily
  - Global and Canada - weekly

## Topics covered include U.S., Canada (63 topics), and international jurisdictions (38 topics):

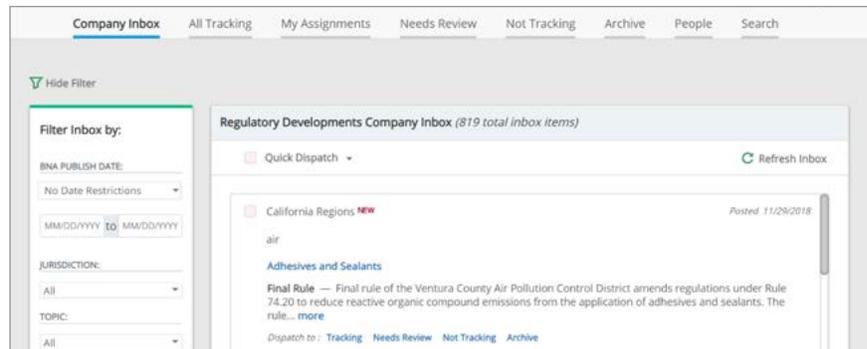

### Major U.S. federal/state topics covered:

- Air
- Biotechnology
- Coastal zone
- Community right-to-know
- Endangered species
- General environment and safety
- Hazardous materials transportation
- Hazardous waste cleanup
- Hazardous waste management
- Mining
- Noise
- Occupational safety and health
- Oil and gas industry
- Pesticides
- Radiation

## Smart functionality does the work for you.

EHS RegTracker™ alerts you to important regulatory information in your chosen topics and jurisdictions. It allows you to assign a rulemaking document for review to any member of your organization, solicit comments from your team, and then track regulatory developments.

## Simple design shows key developments at a glance.

Choose relevant regulatory monitoring content and receive federal, state, Canadian, or international government updates from Bloomberg Environment's respected regulatory monitoring services.

## Streamlined search and filtering tools save you research time.

EHS RegTracker's easy-to-use filtering and search features let you zero in on the regulatory developments most important to you. Filter by date, jurisdiction, topic, or rulemaking status.
