Bloomberg New Energy Finance (BNEF) Clean Energy & Energy Smart Technology League Tables are the most transparent and comprehensive benchmarks for identifying active clean energy investors, project financiers, investment banks and law firms.

The tables in this report cover deals across asset finance, M&A, venture capital / private equity and public markets that have been reported as completed in 2015.

BNEF subscribers can access live league tables and apply filters to focus the results at the link below:

www.bnef.com/LeagueTable

If you are not a subscriber and would like to hear more about the BNEF products, please contact: sales.bnef@bloomberg.net.

Due to the dynamic nature of the BNEF online product, league table rankings may vary between this publication and data found on the BNEF website following the release date. BNEF Clean Energy League Tables represent only transactions that are executed and notified to BNEF at the time of writing.

BNEF does all it can to guarantee the accuracy of deal input data. Organisations are recommended to contact the league table team directly prior to quarterly publication to ensure that all applicable deals are correctly reflected in the BNEF database.

For league table data submissions or calculation queries, please contact: cleanenergy@bloomberg.net

WAREHOUSE FINANCING

WAREHOUSE FINANCE >> PROJECT FINANCING FACILITY

FACILITY	CLOSE	VALUE (\$M)	LEAD ARRANGERS	SPONSORS
SunEdison First Reserve Private Warehouse	06/05/2015	1,516.0	Bank of America (structuring adviser); Goldman Sachs; Citigroup; Macquarie; Morgan Stanley; Barclays; General Electric; Rabobank; OneWest Bank; Hannon Armstrong Capital; Keybank National Association; Suntrust Robinson Humphrey; Deutsche Bank	First Reserve (500.0)

Warehouse Facilities gained popularity in 2015 as a new means of financing the construction and/or acquisition of clean energy assets. The warehouse financing vehicle allows similar assets to be grouped or “warehoused” together while they move through the construction pipeline. Once completed, the assets are moved out of the warehouse facility and dropped down to a yieldco affiliate.

The largest such example (as highlighted in the table) of 2015 was the \$1.5bn SunEdison First Reserve Private Warehouse Facility. The facility will be used to finance the build-out of wind and solar PV generation projects developed by SunEdison, expected to be dropped down into TerraForm Power.

The facility consists of a \$466m five year term loan, a \$550m four year revolver as well as \$500m in equity commitments.

ACCURACY

Due to the dynamic nature of the BNEF online product, league table rankings may vary between this release and data found on the BNEF website following the release date. BNEF Clean Energy League Tables represent only transactions that are executed and about which BNEF has been notified. BNEF does all it can to guarantee the accuracy of deal input data. Organisations are recommended to contact the league table team directly prior to quarterly publication to ensure that all applicable deals are correctly reflected in the BNEF database.

SUBMISSIONS

Three weeks prior to the quarter/year end, all missing submissions for the quarter/year end must be submitted. Participants should also notify BNEF of all deals expected to close within the final two weeks of the quarter/year end, and must provide subsequent confirmation of the closing date, prior to the BNEF League Tables being locked.

Preliminary tables are provided two weeks prior to quarter end for all participants. Any data feedback received following publication of the Q1 to Q4 league tables will be rectified in the following quarter's publication only.

Any time prior to the final submission deadline, at the participant's request, a full inventory of only that participant's submissions can be sent out for review. Submissions will be accepted if received prior to the final week of the quarter. Any information received after this time may not be included in the final league table publication but will be updated on the BNEF database.

BNEF reserves the right of final decision concerning league table eligibility and requires adequate documentation for the same. Bloomberg LP and its suppliers believe the information herein was obtained from reliable sources, but do not guarantee its accuracy. Neither the information nor the opinion expressed constitutes a solicitation of the purchase or sale of securities or commodities.

ACCURACY CLAIMS & ENQUIRIES

All league table participants have the right to examine the accuracy of league table data as published on the BNEF website. All accuracy claims and inquiries must be submitted in writing and with adequate explanation and documentation. BNEF will investigate all accuracy claims and inquiries in a timely manner, but cannot assure completion of its investigation by the respective league table deadlines.
