

Improve data quality across your counterparty database.

Entity Data Services leverage Bloomberg's robust legal entity database and authoritative public data sources (such as Corporate Business Registries, Regulators, and Security Exchanges) to help you match, verify and enrich client data, access the underlying proof for data governance and KYC purposes and monitor the entity records for new registry filings, corporate actions and regulatory updates.

Service Capabilities	Benefit/use case	Source		Delivery	
		Bloomberg legal entity database	Authoritative public sources	Product	Services
Match <ul style="list-style-type: none"> Match a client record to the Bloomberg Legal Entity Database and return the BB ID Company 	Client has a copy of the Bloomberg Legal Entity Database but cannot match it to its own entities	✓		Entity Intelligence	Entity Concierge
Verify & enrich <ul style="list-style-type: none"> Match a client record to the Bloomberg Legal Entity Database, verify attributes, enrich with missing data Research a client record in the public domain to collect data 	Client has a universe of entities (clients/customers/counterparties/vendors) but: <ul style="list-style-type: none"> New regulation requires the addition of new data fields (e.g., LEI) The file has stale, inaccurate, inconsistent data and/or duplicates. The entities have to be screened for KYC purposes but there is not enough information to identify the entities correctly 	✓	✓	Entity Intelligence	Entity Concierge
Proof <ul style="list-style-type: none"> Research a client record in the public domain to collect data and documents 	<ul style="list-style-type: none"> Policy requires the client to collect documentation — but the client doesn't want to bother the counterparty for publicly available data Policy requires the client to verify entity data against an authoritative public source, e.g., business registry or regulator for UBO — and document the process undertaken Policy requires the client to show the data lineage of each data attribute in its entity database — through a link to the source document or website screenshot 		✓	Entity Exchange	Entity Concierge
Ongoing monitoring	<ul style="list-style-type: none"> Ongoing monitoring for changes Alerts and updates 	✓	✓		Entity Concierge
