Components included in full installation file (sotrt04072019.exe)

NAME	DATE	DESCRIPTION
Bloomberg Application	04/07/2019	Bloomberg Application
BBComm	10/05/2018	Bloomberg API
Office Tools	03/07/2019	32-Bit Office Tools software
Office Tools	03/17/2019	64-Bit Office Tools software
Supplemental Fonts	02/07/2010	Supplemental Fonts package

April 2019 Software Highlights

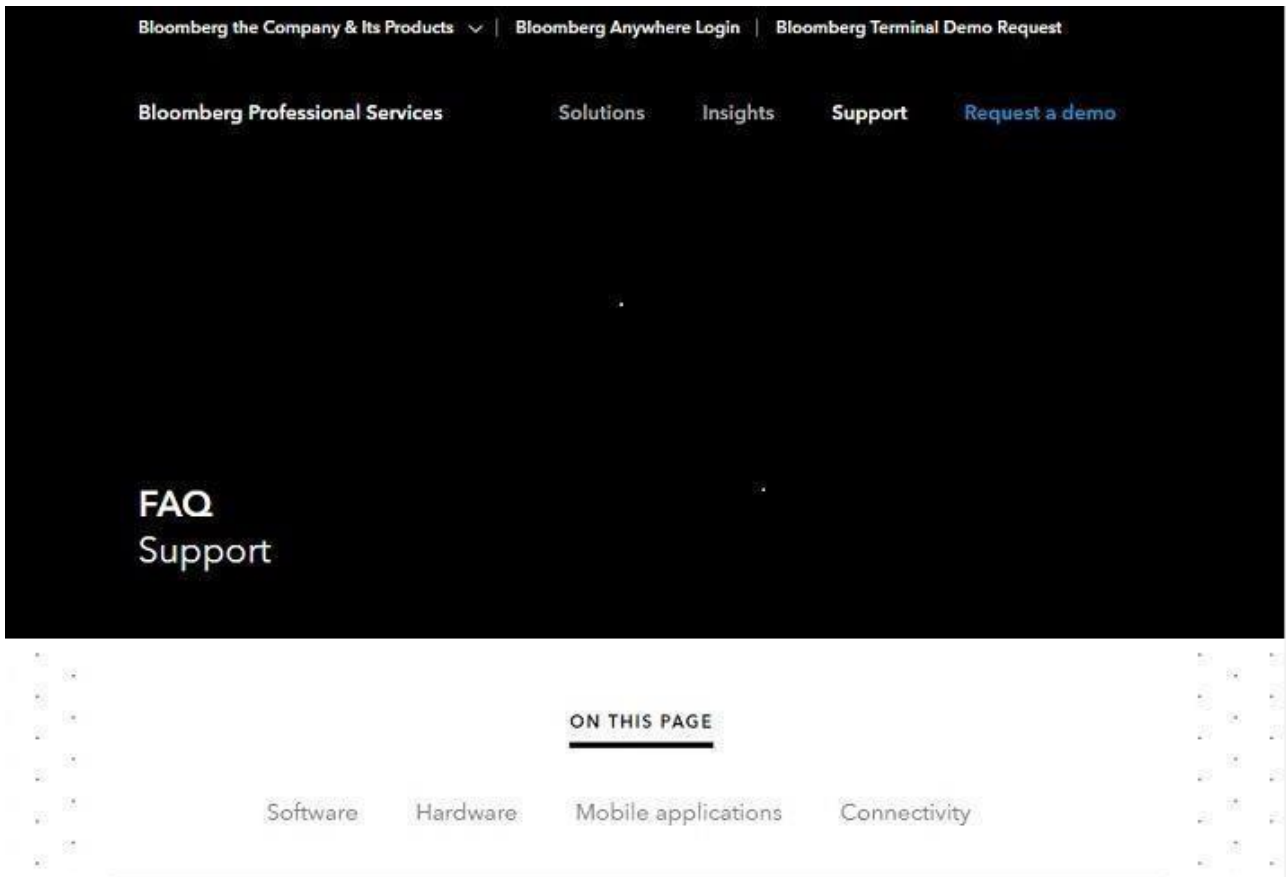

Office Tools

- Fixed an issue where the Bloomberg Excel Options “Update on File Open” setting was not functioning properly.
- Stability improvements to Office Tools.

Miscellaneous

- The Bloomberg Starboard keyboard firmware update will improve performance. The update is not included in the installer, it is installed automatically via the terminal upon connection, and no user interaction is required. All new Starboard keyboards include the latest version of the firmware.

Notes

Software Compatibility Matrix

The following document contains further information on supported Windows Operating Systems and Microsoft Office versions.

https://data.bloomberglp.com/professional/sites/10/software_matrix_22.pdf

Office Tools Installer

The installer for this component contains support for both 32-Bit and 64-Bit versions of the Microsoft Office product. The package will detect which version of Microsoft Office is installed on the workstation and then install the appropriate package.

For any client wishing to extract the separate installers, the bxlammddyyyy.exe installer supports a /s/o switch that will copy two files (bxlaupd_32.exe and ot64upd.exe) into the \blp\Wintrv directory.
