IMPORTANT PRECAUTIONS
- Spray water onto a soft cloth 2 to 4 times and use it to clean the front frame; wipe in one direction only.
- Too much moisture may cause staining.

ASSEMBLING & PREPARING
Accessories Included

Component & Button Description

1 Power button
2 Input connector

Power on
Press the joystick button once with your finger to turn on the monitor.

Power off
Press and hold the joystick button once with your finger to turn off the monitor when the MENU OSD is off.
MOVING & LIFTING THE MONITOR
- When holding the monitor, the screen should face away from you to prevent it being scratched.

Adjusting the Stand Height
1) Place the monitor mounted on the stand base in an upright position.
2) Pull out the locking pin at the bottom rear of the stand body.
3) The height can be adjusted up to 130.0 mm (5.2 in.)

Caution – Once the pin is removed, it is not necessary to re-insert it to adjust the height.

Warning – Do not put your fingers or hand between the screen and the base (chassis) when adjusting the screen’s height.

Adjusting the Angle
1) Place the monitor in an upright position, mounted on the stand base.
2) Adjust the angle of the screen. The angle of the screen can be adjusted forwards or backwards from -5° to 20° for a comfortable viewing experience.

Warning – To avoid injury to the fingers when adjusting the screen, do not hold the lower part of the monitor’s frame as illustrated below.
**Pivot Feature**
The pivot feature allows the monitor to rotate 90° clockwise.

*Note* – To avoid scratching the stand base, make sure that when rotating the monitor using the pivot feature, the stand does not make contact with the monitor.

*Note* – An image displayed on the monitor’s screen does not rotate according to the screen orientation. Adjust Settings accordingly.

1) Raise the monitor up to the maximum height.
2) Adjust the angle of the monitor in the direction of the arrow as shown in the figure.
3) Rotate the monitor clockwise as shown in the figure to 90°.

---

**USING THE MONITOR**

**Connecting to a PC**
This monitor supports the “Plug and Play” feature.
- Plug and Play — A feature that allows you to add a device to your computer without having to reconfigure anything or install any manual drivers.

*Note:*
- When connecting the power cord to the outlet, use a grounded (3-hole) multi-socket or a grounded power outlet.
- The monitor may flicker when turned on in an area of low temperature. This is normal.
- Sometimes red, green or blue spots may appear on the screen. This is normal.

**Display Port Connection**
A DMS-59 to dual Display Port Y-cable is provided for connection to a PC with a DMS-59 video output.

Connect your PC to the monitor using the display port cable as illustrated below. Press the menu button and then select the input option from the input menu.

---

**WHEN MOUNTING WITHOUT A STAND**

**Monitor Mounting Plate Details**

---

MW (x4) machine screws are required (not included)

FCC COMPLIANCE STATEMENT
This equipment has been tested and found to comply within the limits of a Class B digital device pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception (which can be determined by turning the equipment on and off), the user is encouraged to try to correct the interference by using one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution – Changes or modifications not expressly approved by the party responsible for compliance could void the user’s (or your) authority to operate the equipment. Only peripherals (digital input/output devices, terminals, printers, etc.) certified to comply with the Class B limits may be attached to this product. Operation with non-certified peripherals is likely to result in interference to radio and TV reception. Only shielded signal cables may be used with this System.

CANADIAN DOC NOTICE
This Class B digital apparatus meets all requirements of the Canadian Interference-Causing Equipment Regulations. Cet appareil numérique de la classe B respecte toutes les exigences du Règlement sur le matériel brouilleur du Canada.
