Bloomberg Syndicated Loans - League Tables Criteria

General Guidelines

For a signed, syndicated loan transaction to receive credit in Bloomberg league tables, Bloomberg must be notified of the following information:

- Borrower (and parent/guarantor if applicable)
- Total Deal amount
- Signing/execution/funding date
- Maturity date and tenor
- Borrower country of domicile/incorporation
- Tranche amounts and types
- Capital structure rank
- Syndicate list with titles & branch locations
- Agent(s)
- Market of Syndication

Credit is awarded as of the date of execution of the credit agreement, regardless of subsequent events related to the transaction, with the exception of Asia-Pacific transactions signed in senior syndication (documentation required); for which credit is awarded **only** on the syndication completion date.

Amendments / Amended and Restated Agreements

Credit is allocated to amended or amended and restated transactions, where each modification is 100% at the lender's option and not as a result of events already built into the original credit agreement. Credit is awarded for the following structural changes only:

- Maturity is **extended** for a period of three months or more. A limitation of **one** amended maturity update is allowed full credit per loan, per calendar year.
- Credit is allocated on incremental basis for **increases** in deal size.
- **Reduction** in pricing.
- **Full** release of collateral.
- Borrowing base amendment increases on an incremental basis.

Eligible Roles and Credit Allocation

Full credit is split equally between bank(s) sharing the highest title on a loan. Mandated lead arrangers or bookrunners under the same parent are treated as one bank. There is no limit to the number of mandated lead arranger or bookrunner titles on any syndicated loan.

Bloomberg L.P. reserves the right of final decision concerning league eligibility and requires adequate documentation for the same. Bloomberg L.P. and its suppliers believe the information herein was obtained from reliable sources, but they do not guarantee its accuracy. Neither the information nor the opinion expressed constitutes a solicitation of the purchase or sale of securities or commodities. Due to the dynamic nature of the Professional Service product, League Table rankings may vary between the quarterly/year-end publications and data found on the Bloomberg Professional Service.

Bloomberg Syndicated Loans - League Tables Criteria

Table Types

- **Investment Grade Loans**

Loans or Borrowers with one or more Investment Grade ratings are automatically considered Investment Grade. Where a Loan or Borrower receives split ratings, the transaction will be credited to the relevant Investment Grade table.

- **High Grade Loans**

Unrated Loans will be considered high grade if they are unsecured and have a margin at close of:

- a. Less than 200 BPS for US Deals
- b. Less than or equal to 100 BPS for non-US Deals

Leveraged:

- Loans with two of the following non-investment grade ratings are automatically considered leveraged:

- a. BB+ – D by Fitch
- b. Ba1 – C by Moody's
- c. BB+ – D by S&P

- Loans not specifically rated non-investment grade, but where the borrowing entity is or has a corporate family rating that is rated noninvestment grade, will be considered **leveraged** for the purposes of league table credit; or

- If neither the loan nor borrower are rated non-investment grade, the loan will still be considered leveraged for the purposes of league table credit if:

- a. The primary use of proceeds is either LBO, MBO, recapitalization, secondary buyout; and/or
- b. The loan has an equity sponsor; and/or
