This screen will configure the desired connection method for your Bloomberg Professional® Service. The default setting is "Connect to the Bloomberg using Private IP network" as this is the most common connection type and should be selected if you are unsure which method you should be using. In any case, this setting can be changed after the installation is complete.

> Connect to the Bloomberg using Private IP Network

This option refers to a dedicated leased line connection via Bloomberg supplied access router(s).

Connect to the Bloomberg using Internet

This option is typically used for direct Internet access to Bloomberg, or when Private IP is unavailable.

Install Bloomberg Serial Number

There are three ways to install Bloomberg Serial Number.

>Access Point On Demand (APOD) for Bloomberg Anywhere users.

Access Point On Demand (APOD) has been designed to allow a user to create a configured Bloomberg Access Point, without interaction with a Bloomberg representative.

>Install new serial number for Terminal Based License users.

Install new serial number option is for Terminal Based License users (Non-Bloomberg Anywhere users).

>Reinstall serial number for Terminal Based License users.

Install new serial number option is for Terminal Based License users (Non-Bloomberg Anywhere users).

Access Point on Demand (APOD) Creation Steps

Step 1 - Launch the Connection Wizard by double clicking the Bloomberg icon on your Desktop, or by going to Start – Programs – Bloomberg. Select the Access Point tab, enter LOGIN NAME and PASSWORD. Click Submit.

If connection via Private IP has been established proceed to Step 3. If connection via Internet has been established proceed to Step 2.

Step 2 - The User is then prompted to perform a screen-sync and to enter the B-Unit code. Click Submit.

Step 3 - The above Bloomberg message will appear after the user's credentials have been validated. Click OK.
