Bloomberg

# Bloomberg LNG Suite

Bloomberg is the LNG market's premier destination for news and research, prices, and fundamentals – combining these crucial elements into one unified solution for analysts, traders and finance professionals. The Bloomberg Terminal® gives you the power to analyze the factors affecting your business, clients and stakeholders, identify opportunities, and make more informed decisions. From short term gas prices and vessel tracking to long-term market outlooks and in-depth analysis, we've got you covered.

# Pricing

Bloomberg provides unrivaled coverage of gas and LNG pricing worldwide, in spot markets, forwards and futures.

## All pricing on one unified platform

- Brent
- Henry Hub
- TTF (Title Transfer Facility)
- NBP (National Balancing Point)
- JKM (Japan Korea Marker)

## Customized pricing templates

Use Bloomberg Excel API to accurately price LNG cargoes with integrated gas prices and FX forward rates.

## Pricing analysis

Run technical analysis, correlations charts and data visualization to identify trends and make sense of data.

# News, Research & Analysis

Our global team of LNG journalists and researchers cover all aspects of the LNG market, from company and market news to outages and weather.

The screenshot shows the Bloomberg News website interface. The search bar contains "Liquefied Natural Gas". The page title is "Page 1 News". The main content area is titled "Top Ranked News" and lists several articles with their respective sources and times. The articles are:
