

Future of Finance

- 09:30 - 10:00 **Registration and Coffee**
- 10:00 - 10:15 **Welcome remarks**
- 10:15 - 11:00 **Keynote & Interview: Banking in an Environment of Negative Interest Rates - Challenges and Remedies.** Interview by Matt Miller, Bloomberg TV
- Karl von Rohr, President, Deutsche Bank AG

WORKSHOPS

- 11:10 - 12:10 **Workshop 1: Machine Learning in Finance.** Understand the impact of machine learning and AI on finance and hear how Bloomberg is already applying it. We will discuss the practical issues in delivering machine learning solutions, highlight critical issues such as interpretability, differential privacy and nonstationarity, and outline current research and future directions.
- Workshop 2: Transforming the Industry with One Data.** Transform how you consume data with Bloomberg's comprehensive and consistent One Data offering. Benefit from clean, ready-to-use data in standard formats and fast, reliable distribution that evolves with changing market needs.
- Workshop 3: Sell-side Solutions to Improve Efficiency.** Explore how sell side firms can utilize Bloomberg to optimize voice and electronic trade workflow, increase global distribution to markets, manage risk and compliance, and improve operational efficiency
- Workshop 4: Fundamental Approach to ESG Investing.** Discover how to best utilize Bloomberg's suite of ESG data, how to create an ESG score and how to integrate ESG goals into your investment process on the Terminal.

- 12:10 - 13:00 **Lunch**
